

MatMind

AI-POWERED TEAM MANAGEMENT FOR YOUTH WRESTLING

POWERED BY CLAUDE AI

The AI isn't a feature inside the app — **it is the app**. Run your whole team by simply saying what you need.

YOUR AI ASSISTANT COACH

- ▶ **"Marcus is sick, pull him from Saturday."** → MatMind updates availability, notifies the parents, and flags the open weight class — from one sentence.
- ▶ **"Who's confirmed for Peach State?"** → Instant answers pulled from your live roster, schedule, and availability.
- ▶ **"Add practice Thursday at 6pm."** → The event is created. No menus, no forms.
- ▶ The AI Coach answers **parent questions in team channels automatically**, drawing from your uploaded flyers, policies & FAQs.

EVERYTHING A COACH NEEDS

 **Conversational AI Coach**
A private command center — manage the team by chatting

 **Skill-Based Roster**
Athletes, parents & coaches with tap-to-call contacts

 **AI Knowledge Base**
Import a web page or flyer — the AI answers from it

 **Smart Schedule**
Practices, matches & tournaments with per-group RSVP

 **3-Tier Communication**
In-app chat, email newsletters & tournament-day SMS

 **Installable App**
Home-screen PWA with push notifications

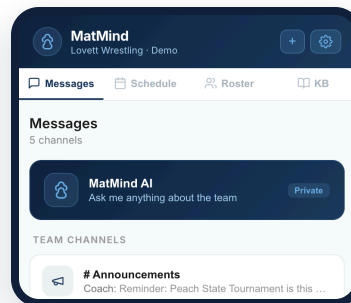

Ask anything. MatMind answers from your live team data — in plain English.
